

The Salon Professional Academy establishes a criterion regarding the transfer of credit hours earned from another school as listed below:

All accepted transfer hours will be credited at the end of the program. A possibility exists that no transfer credit will be granted. Students transferring from another franchise location of Salon Professional Education Company will be placed into an existing class based on level of completion recorded on their transcript. Courses with an 85% or higher grade will be eligible for transfer hour's credit with a maximum of 100% of the student's completed hours allowable for transfer in general education chapters. Tuition balances do not transfer from one school to another.

A student wishing to transfer may be accepted to an educational course / program after carefully evaluating the student's academic records. Each transfer is evaluated on an individual basis. Students will be required to complete theory and practical training that are unique to our franchise system. The Barber Styling specific classes include: Principal Based Design and Finishing, Color, Business Building Skills, Art of Consultation and Product knowledge for a total of 350 hours. Subjects of similar nature will not transfer from other schools. For the remaining hours to full graduation requirements, the Barber Styling transfer students will pay \$8.05. Transfer students will be subject to over contract fees, if applicable.

The Salon Professional Academy has an established Articulation Agreement with the following:

- We do not have an articulation agreement with any other school
